

How to join the Vision 2020 Network Online

How to Create Your Profile

1) Go to <http://www.civicnetwork.io> and click the green “Get Started Now” button.

2) You may choose to import your profile information from Facebook, Google, LinkedIn, or just fill out the form. Fields required to complete a profile have a red asterisk next to them & include: 1. E-mail 2. Password 3. First & Last Name 4. Issue Area (You must choose at least one) 5. City, State, Zip Code

Complete the optional fields now or later. You can return at any time to edit your profile.

3) Once you’ve completed the required fields and any others you desire, scroll to the bottom of the page and click the blue “Create new account” button.

Now that you’ve created your account, you can log on and join Vision 2020 and our affiliated Technology, Outreach and Policy teams.

How to Find Our Network

1) First, check to make sure you are logged in since you’ll need to be to join a network. If your name appears in the upper right corner, then you are logged in. If you see the word “Login” instead of your name, then click “Login”.

If you are using a device with a smaller screen such as a tablet or phone, you may see “MENU” in the upper right corner. Click “MENU” to see options to login and search for people and networks.

2) Click “Find People and Networks” (or “Menu”) in the top right corner of the page. A list of all networks will appear on the next screen.

-Scroll through the list until you find Vision 2020 Network. When you’ve found us, click on the network name or logo.

-On the Vision 2020 Network page, click on “Ask to Join This Network.”

-On the next page, send a request to the network coordinator to join the network. If you’d like, include a message to the coordinator, then hit the “send”. The coordinator must approve your request before you are added to the network.

Once you’re a member of the Vision 2020 Network, you can also join our affiliated Policy, Technology or Outreach teams via the home page of the Vision 2020 Network. You’ll use the same request to join process as outlined above.

We believe this tool will be a robust technological platform for internal communication among the Network and external communication about Network partners activities. And we’re just getting started! Technology team members will collaborate on a vision of a platform where all Coloradans can access the work of our Network, share in our events and efforts, and promote, from their individual and organizational perspectives, the value of public investments in maintaining our Colorado way of life.

Need support? Email us at ColoradoVision2020@gmail.com or support@civicnetwork.io

HOW CAN I GET INVOLVED?

Join a Vision 2020 Team!

Vision 2020 Technology Team

This team, a subset of Vision 2020 Network partners, will work together to create, enhance and share a robust technological platform for internal communication among the Network and external communication about the Network partners activities. Team members will collaborate on a vision of a platform where all Coloradans can access the work of our Network, share in our events and efforts, and promote, from their individual and organizational perspectives, the value of public investments in maintaining our Colorado way of life.

We don't need you to be an expert in technology (but experts are welcome!). Please just bring passion and creativity to help us expand our technology platform across the state.

Vision 2020 Outreach Team

This team, a subset of Vision 2020 Network partners, will work together to create and share sensible messaging to reach (and discover!) every member of the Public Investment Majority across Colorado. Team members will take a deep dive into messages and outlets, helping to shape creative and sensible opportunities to share the need for structural change in our tax policy across the state. Members will work to help "connect the dots" between recognizing and understanding public investment, and supporting organizations and individuals in sharing *their* stories and perspectives on what's needed in order to maintain the Colorado way of life.

Vision 2020 Policy Team

This team, a subset of Vision 2020 Network partners, will work together to craft the ultimate structural solution to the tax policy barriers identified by the Network. Guided by a set of tested legal parameters, this group will work together to identify the most robust solution to ultimately be put to Colorado voters by 2020. Members will create and build consensus around a decision-making model, and will be supported by both legal and policy expertise.

***Sign up for these teams via the Vision 2020 Network at www.civicnetwork.io . (Instructions for accessing and joining the Network platform can be found on the reverse. Once you've joined the Vision 2020 Network, you can select any of the above teams under "Affiliated Networks" and request to join the team.)*
